

Customer Specific Pricing

Available for
Dynamics GP

And Microsoft Small Business Financials

Simple Customer Specific & Item Based Quantity Pricing is Now Possible

The Customer Specific Pricing Module for Dynamics GP adds simple to use customer specific and quantity based pricing functionality.

Customer Specific Pricing

With this module you have the ability to have a unique price for each item for every customer. This is a great feature for

"Your products certainly have extended the functionality of Dynamics for our customer. Great job!"

-Merrill T. Osterman,
Momentum Technologies Organization

companies that negotiate prices with customers.

With the latest

version of Customer Specific Pricing, these prices can now be formula based: Percent above/below last cost or

percent above/below base price. Never over invoice those loyal customers and avoid manually typing special prices!

Item Number	Item Description	Calculation Type	Price/Amount	Percent	Price
B1100	Children's Bike Helmet	Specified Price	18.00	0.00	18.00
B1110	Adult Bike Helmet	% Inc-Last Cost	0.00	10.00	21.95
B1210	Blue Bicycle	Specified Price	0.00	0.00	0.00

Setup unlimited customer specific prices for items whether they are stock, service or labor items. Use your price calculation method.

QTY From	QTY To	Calculation Type	Price/Amount	Percent	Price
1	9	% Inc-Last Cost	0.00	30.00	\$20.74
10	19	% Inc-Last Cost	0.00	20.00	\$19.15
20	0	% Inc-Last Cost	0.00	18.00	\$18.83
0	0	% Inc-Last Cost	0.00	0.00	\$0.00

Setup quantity based pricing for each item you have. The selling pricing can be a formula based on cost or base price.

Report on Customer Pricing

Need to go over contract pricing with your customer or boss? Easily print a report that lists all the items a customer is getting special pricing on. You can also print this info out on a report for each item.

Quantity Based Pricing

Want to have quantity based pricing? With Customer Specific Pricing this is as simple as filling out your pricing brackets.

Security Keeps Pricing Setup Safe

Utilizing the standard system security in Dynamics GP only those authorized to have access to Customer Specific Pricing can setup special prices for customers.

Price Type	Calculation Type	Price/Amount	Percent	QTY From	QTY To	Calc P
QTY Based	* Inc-Last Cost	0.00	30.00	1	9	
QTY Based	* Inc-Last Cost	0.00	20.00	10	19	
QTY Based	* Inc-Last Cost	0.00	18.00	20	0	

Item Pricing Count: 3

You can print a report to show the quantity based pricing for this item.
